

Empowering EV Owners with Webasto ChargeConnect App and Web Portal for Webasto TurboConnect™ Charging Stations

Expanding Accessibility for Webasto TurboConnect™ Charging Station Users

Monrovia, Calif. – Feb. 21, 2024 – [Webasto Charging Systems Inc.](#), a subsidiary of [Webasto Group](#), which recently announced its divestment of the charging business to [Transom Capital Group](#), today announced the latest additions to the company’s North American digital charging family, the Webasto ChargeConnect™ App, and the Web Portal.

These innovations offer seamless mobile EV charging management for administrators and EV drivers and are fully compatible with the Webasto TurboConnect™ Charging Station.

“The Webasto ChargeConnect App and Web Portal provide a real-time charging solution to a diverse range of users, including fleet supervisors, property owners, hotel management groups, real estate companies, dealerships, and more,” says Michael Schoenberger, Vice President of Research and Development at Webasto Charging Systems. “The ChargeConnect platform enables efficient and demand-optimized charging while empowering users to manage complex multi-charging sessions, access data history, and control energy consumption remotely.”

The Webasto ChargeConnect App is the perfect mobile companion, offering seamless access to the Webasto TurboConnect charging station. Based on the Open Charge Point Protocol (OCPP), it empowers users with convenient control over the charging station, enabling functions including status monitoring, user management, and remote maintenance from any location at any time. Additionally, the platform features a flexible subscription plan, enabling users to tailor feature availability to suit their needs, ensuring a personalized charging experience.

The TurboConnect charging station offers numerous benefits, including internet integration, 24/7 accessibility, and over-the-air updates that adhere to the highest cybersecurity standards. Together, the ChargeConnect App and TurboConnect Charging station redefine the EV charging experience, providing users with unparalleled convenience, control, and security.

The Webasto ChargeConnect Web Portal offers comprehensive management of multiple charging stations, allowing charging station administrators to view charging data, configure infrastructure, manage access control through a user-friendly interface, and more. The ChargeConnect Web Portal's key features include detailed charging session information, comprehensive logs, system alerts, an energy consumption dashboard, data export capabilities, and regular updates for enhanced stability and performance.

The Webasto ChargeConnect App is readily available for download on all established app stores, ensuring easy accessibility for users.

To experience the user-friendly interface firsthand, please click [here](#) for a video demonstration.

About Webasto:

As a global innovative systems partner to the mobility industry, Webasto is one of the 100 largest suppliers to the automotive sector worldwide. In development, manufacturing and sales, the company focuses on roof systems on the one hand and on vehicle electrification on the other hand.
